

MEMORANDUM FOR: Mr. Bross

SUBJECT : Request for Educational Assistance

1. The University of California, Los Angeles is sponsoring a two-week course in engineering systems entitled "Operations Research and Analysis". This special program is to be conducted between the dates of 22 September and 3 October 1969.
2. The purpose of the course is to present fundamentals and associated mathematical methods of operations research as applied to representative "real life" problems currently being investigated by government and industry. The attached schedule describes the course content.
3. I believe that attendance at this course would augment my technical development with disciplines that are required in my function with the NIPE/SAG. I have discussed the subject with [REDACTED] and he concurs in this judgment. Accordingly, it is requested that I be granted permission to attend the course.
